

RF Alliance Conference  
**Enabling Multi-Antenna & Broadband RF Systems**  
with a short course presented by Purdue University  
April 5-6, 2010  
Purdue University—West Lafayette, IN  
**Call for Posters**

---

Student posters will be submitted into a competition. Other research related poster submissions will be on view but not submitted for competition. Posters will be judged by attendees of the conference. Criteria will include Innovation and contribution to RF technology.

Posters will be presented on April 6th during breakfast and the morning break.

The deadline for submitting a poster is **March 22, 2010**.

Posters should be set up by 7:00am on April 6th.

We will be accepting posters related to the following topics:

- Broadband Systems
- Low Cost Arrays
- Reconfigurable Systems
- MIMO systems
- Phased arrays
- Unique waveform generation
- Smart Antennas
- Coherent receiver/transmitters
- Low cost packaging
- Active Electronically Steered Antennas (AESA)
- EMI detection and tracking
- Low Probability of Intercept (LPI) signals

If you are interested in participating in the poster session, please return the following registration information to:

**Jacque Norris**  
**14051 Westgate Court, Box 190**  
**Crane, IN 47522**  
**jacque.norris@rfalliance.org**  
**812.558.7121**
