What is it?

- The Naval S&T Partnership Conference is the Office of Naval Research's premier corporate event. Leadership will discuss the objectives of the Naval Science and Technology (S&T) strategy, status of key programs and research challenges. The event is 24-26 August at the Hyatt Crystal City in Arlington, Virginia.

What will it accomplish?

- The Naval S&T Partnership Conference will:
 - Introduce and advance awareness of ONR's S&T strategy and program initiatives
 - Present S&T program challenges and discuss possible technology solutions
 - Broaden our S&T partnership base and explore new ideas with participants

How will it work?

- The conference will provide multiple opportunities for two-way dialogue on S&T requirements, challenges and new opportunities:
 - Plenary room presentations and panel discussions
 - Dialogue with ONR program officers in breakout rooms
 - Talks with Navy ONR principals in one-on-one meetings and at the S&T Information Exchange

Who should come?

- Naval leaders, agencies, industry, academia, and other services
- Visit our website for updates on keynote speakers and to register!

The Office of Naval Research (ONR) delivers "next generation technology for today's warfighter." ONR investments in basic research, applied science and advanced technology investigate new ideas and produce leap ahead innovations for our Sailors and Marines.

The U.S. Navy and Marine Corps are already exploring innovative solutions in cutting edge programs, such as:

- Tactical satellites
- Maritime lasers
- Electromagnetic Railgun
- Combat casualty care
- Hull coatings and corrosion control
- Autonomous vehicles

As ONR investigates these and other technologies, it recognizes the importance of dialogue and sharing new ideas on other complex challenges. These challenges can be grouped into seven themes that will guide the event proceedings.

Seven themes for the conference:

- Autonomous Systems
- Directed Energy & Hypervelocity
- Naval Warfighter Performance
- Information Dominance
- Total Ownership Cost Reduction
- Expeditionary & Irregular Warfare
- Power & Energy

As a follow-up to our [Naval Energy Forum](#), you will also learn about advances in "Power and Energy" research to help the Secretary of the Navy meet his energy targets for the Department of the Navy.

We want to hear from you! ONR will post a \$1 million research challenge in advance of the event. Responses must be submitted in person. [Register today](#) and be one of the first to get more details!
